ASSEMBLY INSTRUCTIONS

CONNECTOR KIT MODEL #STEP-CK

PARTS LIST		HARDWARE		TOOLS REQUIRED FOR ASSEMBLY:
Qty.	Description	Qty.	Description	<ul style="list-style-type: none"> • Pliers • Mallet (or Hammer) and block of wood • Drill Motor (Cordless) • Phillips Bit
1	Connecting Step	26	#10x1-1/4" Screw	
2	Connecting Rail			

Assemble the two STEP-1 units as per their instructions, but do not attach the mounting brackets to the posts (as described in Step 9 of the STEP-1 Instructions). These parts will not be used. Also, do not attach the handrails to the posts (as described in Step 11 of the STEP-1 Instructions). For best installation results, the outside unit should be placed on flat patio blocks on level ground.

Step 1

Using a pair of pliers twist off the locking wedges from both ends of the connecting step and SAVE.

Step 2

Lay one of the connecting rails down on a clean, flat surface. Push the end of the connecting step into the openings of the connecting rail until fully seated. Make sure the "tread" surface of the step is facing up towards the rails.

Step 3

Lay the second connecting rail down and push the opposite end of the connecting step into the openings until fully seated.

Step 4

Secure the connecting step by fully inserting the locking wedges, saved from step #1, between the side panel and the top surface of both ends of each step. Tap in place with a hammer.

Step 5

With one of the assembled step units at the desired location inside the pool, and the second unit placed outside the pool, slide the assembled connector kit down over the upper handrail posts until it is resting on the pool top seat. **IMPORTANT: DO NOT stand on the top steps of the units until fully assembled.**

Step 6

Fasten the connector kit to the handrail posts using (16) #10 x 1-1/4" screws (eight per side) at each of the pre-marked locations.

Step 7

Complete assembly by attaching the four handrails to the handrail posts as described in step 11 of the #STEP-1 instructions.

SAFETY RULES

Kit **MUST** be installed per manufacturer's instructions

Kit to be used with STEP-1 only

Check the contents of this carton with the parts and hardware list.
If any parts are missing return the carton and contents to your dealer.

Do not attempt to assemble or install this kit if there are **ANY** shortages.

For proper assembly and installation follow all instruction in the sequence shown in this manual.

Before using the product, after assembly and before installation, go over the instructions and procedures again to make sure nothing has been overlooked.

Be sure and safe. The manufacturer is not responsible for improper assembly, installation and use.

DANGER: Never use an electric drill in or around the pool.
